```
graph LR; A[qsv_enc_init] --> B[ff_qsv_enc_init]; B --> C[qsvenc_init_session];
```

The diagram illustrates a three-step process flow. It begins with a box labeled 'qsv_enc_init', followed by an arrow pointing to a box labeled 'ff_qsv_enc_init', and finally an arrow pointing to a box labeled 'qsvenc_init_session'. The last box is shaded gray, indicating it is the final step in the sequence.
