

ff_v4l2_context_set
_format

```
graph LR; A[ff_v4l2_context_set_format] --> B[ctx_to_m2mctx]
```

A diagram showing a mapping from a function to a variable. On the left, a gray rectangular box contains the text 'ff_v4l2_context_set' on the top line and '_format' on the bottom line. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'ctx_to_m2mctx'.

ctx_to_m2mctx
