

filter\_frame

```
graph LR; A[filter_frame] --> B[lut_packed_16bits]
```

A diagram showing a flow from a box labeled 'filter\_frame' to a box labeled 'lut\_packed\_16bits'. The 'filter\_frame' box is white with a black border, and the 'lut\_packed\_16bits' box is gray with a black border. A blue arrow points from the right side of the 'filter\_frame' box to the left side of the 'lut\_packed\_16bits' box.
