

vaapi_encode_check
_frame

```
graph LR; A[vaapi_encode_check_frame] --> B[av_frame_get_side_data]
```

A diagram showing a call from the function `vaapi_encode_check_frame` to the function `av_frame_get_side_data`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

av_frame_get_side_data
