

vorbis\_parse\_setup  
\_hdr\_tdttransforms

```
graph LR; A["vorbis_parse_setup  
_hdr_tdttransforms"] --> B["get_bits"]
```

A diagram showing a call from the function `vorbis_parse_setup_hdr_tdttransforms` to the function `get_bits`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

get\_bits
