

do\_chromakey\_pixel16

```
graph LR; A[do_chromakey_pixel16] --> B[diff]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The first box on the left is gray with a black border and contains the text 'do\_chromakey\_pixel16'. A dark blue arrow points from the right side of this box to the left side of the second box. The second box on the right is white with a black border and contains the text 'diff'.
