

rtmp_open

rtmp_close

gen_fcunpublish_stream

```
graph LR; A[rtmp_open] --> B[rtmp_close]; B --> C[gen_fcunpublish_stream];
```

The diagram illustrates a sequence of three functions in a flowchart. The first function, 'rtmp_open', is in a white box. An arrow points to the second function, 'rtmp_close', also in a white box. Another arrow points from 'rtmp_close' to the third function, 'gen_fcunpublish_stream', which is in a gray box. This visual distinction likely indicates that 'gen_fcunpublish_stream' is the final or primary function in the sequence.
