

extract_extradata_av1

extract_extradata_h2645

bytestream2_put_bufferu

```
graph LR; A[extract_extradata_av1] --> C[bytestream2_put_bufferu]; B[extract_extradata_h2645] --> C;
```

The diagram illustrates a data flow where two separate extraction processes, 'extract_extradata_av1' and 'extract_extradata_h2645', feed into a single output function, 'bytestream2_put_bufferu'. The input boxes are white with black borders, while the output box is gray with a black border. Blue arrows indicate the direction of the data flow from left to right.
