

sobel

```
graph LR; A[sobel] --> B[get_rounded_direction]
```

A diagram showing a call from a function named 'sobel' to a function named 'get_rounded_direction'. The 'sobel' box is shaded gray, and the 'get_rounded_direction' box is white. A blue arrow points from the right side of the 'sobel' box to the left side of the 'get_rounded_direction' box.

get_rounded_direction
