

ff\_decklink\_read\_header

ff\_decklink\_write\_header

ff\_decklink\_list\_devices  
\_legacy

```
graph LR; A[ff_decklink_read_header] --> C[ff_decklink_list_devices_legacy]; B[ff_decklink_write_header] --> C;
```

The diagram illustrates a dependency or relationship between three components. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'ff\_decklink\_read\_header' and the bottom box contains 'ff\_decklink\_write\_header'. On the right, there is a larger gray rectangular box with a black border containing the text 'ff\_decklink\_list\_devices' followed by a line break and '\_legacy'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'ff\_decklink\_read\_header' and 'ff\_decklink\_write\_header' are associated with or depend on 'ff\_decklink\_list\_devices\_legacy'.
