

ff\_aac\_apply\_main\_pred

ff\_aac\_search\_for\_pred

reset\_all\_predictors

```
graph LR; A[ff_aac_apply_main_pred] --> C[reset_all_predictors]; B[ff_aac_search_for_pred] --> C;
```

The diagram illustrates a control flow where two functions, 'ff\_aac\_apply\_main\_pred' and 'ff\_aac\_search\_for\_pred', both point to a common function 'reset\_all\_predictors'. The arrows are blue and point from the left boxes to the right box.
