

rtmp_open

gen_connect

rtmp_write_amf_data

```
graph LR; A[rtmp_open] --> B[gen_connect]; B --> C[rtmp_write_amf_data];
```

The diagram illustrates a three-step process flow. It begins with a box labeled 'rtmp_open', followed by an arrow pointing to a box labeled 'gen_connect', which in turn points to a final box labeled 'rtmp_write_amf_data'. The final box is shaded gray, indicating it is the current step or the end of the sequence.
