

hwdownload\_query\_formats

query\_formats

ff\_formats\_pixdesc  
\_filter

```
graph LR; A[hwdownload_query_formats] --> C[ff_formats_pixdesc_filter]; B[query_formats] --> C;
```

The diagram illustrates a data flow where two separate inputs, 'hwdownload\_query\_formats' and 'query\_formats', are combined and passed into a single processing block. The processing block is labeled 'ff\_formats\_pixdesc\_filter' and is shaded gray. Two blue arrows originate from the right side of the first two boxes and point towards the left side of the third box, indicating the direction of the data flow.
