

```
convert_from_tensorflow.  
TFConverter.generate_sub  
_block_op_scope_info
```

```
graph LR; A["convert_from_tensorflow.  
TFConverter.generate_sub  
_block_op_scope_info"] --> B["add"]
```

A diagram showing a call to the method `TFConverter.generate_sub_block_op_scope_info` from the `convert_from_tensorflow` module. A blue arrow points from this call to a box labeled `add`, indicating that this method generates sub-block operation scope information for an addition operation.
