

decompress_texture
_thread

```
graph LR; A[decompress_texture_thread] --> B[decompress_texture_thread_internal]
```

A diagram showing a relationship between two threads. On the left is a gray rectangular box containing the text 'decompress_texture_thread'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'decompress_texture_thread_internal'. Both boxes have a black border.
