

ff\_hevc\_merge\_idx\_decode

```
graph LR; A[ff_hevc_merge_idx_decode] --> B[get_cabac_bypass]; B --> C[refill];
```

A flowchart with three rectangular boxes connected by arrows. The first box, labeled 'ff\_hevc\_merge\_idx\_decode', has a light gray fill and a black border. A dark blue arrow points from its right side to the second box, labeled 'get\_cabac\_bypass', which is white with a black border. Another dark blue arrow points from the right side of the second box to the third box, labeled 'refill', which is also white with a black border. The boxes are arranged horizontally and are of equal height.
