

float_near_abs_eps
_array

```
graph LR; A["float_near_abs_eps_array"] --> B["float_near_abs_eps"]; B --> C["fabsf"]
```

The diagram illustrates a three-step process. It begins with a gray rectangular box containing the text 'float_near_abs_eps_array'. A dark blue arrow points from this box to a white rectangular box containing the text 'float_near_abs_eps'. A second dark blue arrow points from this second box to a third white rectangular box containing the text 'fabsf'.
