

hw_device_free_all

```
graph LR; A[hw_device_free_all] --> B[av_buffer_unref]; B --> C[buffer_replace]
```

The diagram illustrates a three-step process flow. It begins with a box labeled 'hw_device_free_all', which is shaded gray. A dark blue arrow points from this box to a second, white box labeled 'av_buffer_unref'. Another dark blue arrow points from the second box to a third, white box labeled 'buffer_replace'. All boxes have a black border and are arranged horizontally.

av_buffer_unref

buffer_replace
