```

The diagram illustrates a data flow where two separate input functions, `cbs_h264_write_nal_unit` and `cbs_h265_write_nal_unit`, both feed into a single output function, `cbs_h2645_write_slice_data`. The input boxes are white with black borders, while the output box is gray with a black border. Blue arrows indicate the direction of the data flow from left to right.
