

draw\_gradients\_slice

draw\_gradients\_slice16

project

```
graph LR; A[draw_gradients_slice] --> C[project]; B[draw_gradients_slice16] --> C;
```

The diagram illustrates a data flow or dependency structure. On the left, there are two rectangular boxes with black borders. The top box contains the text 'draw\_gradients\_slice' and the bottom box contains 'draw\_gradients\_slice16'. On the right, there is a single rectangular box with a black border and a light gray fill, containing the text 'project'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the 'project' box, indicating that both 'draw\_gradients\_slice' and 'draw\_gradients\_slice16' are inputs or dependencies for the 'project' operation.
