

ff\_hevc\_sao\_type\_idx  
\_decode

```
graph LR; A[ff_hevc_sao_type_idx_decode] --> B[get_cabac_bypass]; B --> C[refill];
```

A flowchart with three rectangular boxes connected by arrows. The first box on the left is shaded gray and contains the text 'ff\_hevc\_sao\_type\_idx' on the top line and '\_decode' on the bottom line. A blue arrow points from the right side of this box to the left side of the second box. The second box is white with a black border and contains the text 'get\_cabac\_bypass'. Another blue arrow points from the right side of the second box to the left side of the third box. The third box is white with a black border and contains the text 'refill'.
