

ff\_amf\_write\_string

```
graph LR; A[ff_amf_write_string] --> B[bytestream_put_buffer]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text 'ff\_amf\_write\_string'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'bytestream\_put\_buffer'. Both boxes have a black border.
