

packet_queue_start

```
graph LR; A[packet_queue_start] --> B[packet_queue_put_private]
```

A diagram showing a pointer relationship between two variables. On the left, a gray rectangular box contains the text 'packet_queue_start'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'packet_queue_put_private'. Both boxes have a black border.

packet_queue_put_private
